Note:

¹Ambulances are paid from the General Fund and then reimbursed by the County per shared cost agreements.

²This portion of the project was funded in 2025 (City, Douglas County, State grant).

^{3\$210}k of the proposed funding in 2029 assumes a private company would lease an extra conduit to the City for installation. Due to this, the noted amount may not be solely a General Fund expense.

Note

¹ADA Sidewalk Reconstruction and ADA Brick Sidewalk Reconstruction were combined with the ADA Right-of-Way Transition Program.

²Only \$500k of the shown cashflow is new request. The remaining \$780k was anticipated to be spent in 2025 and does not impact available funds for 2026-2030.

³This project is part of the Street Maintenance Program. The Program amount has been reduced by this project in the applicable years.

⁴The funds for this project are reallocated 2025 budget from PR-239000 which is no longer tenable. This project is intended to serve as a placeholder as other Loop alignments are evaluated.

⁵Due to the recent passage of the Gateway MOU by the City Commission, it is anticipated this project will be amended in the future to show as funded and reflect the TIF funding source.
